Synaps Digital XM

Synaps Digital XM is a polyester based synthetic paper engineered for high heat, dry toner digital printing. Toner fuses with the synthetic paper to make the finished product both durable and naturally resistant to water, chemicals and grease. The polyester based material has incredible tear strength, and can hold up in any environmental condition.

Digital Productivity

- Designed to perform on all dry toner based platforms
- On demand, high quality printing
- Minimal scrap, waste and time compared to lamination

Ultimate Durability

- Toner fusing creates a naturally resistant surface to water, chemicals and grease
- Polyester base provides incredible tear strength and dimensional stability
- Eliminates frayed edges and de-lamination issues

NEKOOSA COATED PRODUCTS,LLC

Synaps OM

Synaps OM effortless, efficient processing combined with beauty and strength makes Synaps® OM the new standard for offset synthetics. Synaps® OM is a next generation synthetic paper that is made from high grade polyester and high performance printable topcoat. No other product comes close to matching its exceptionally fast drying time and print quality, all with standard offset inks. The polyester film provides tear resistance, excellent dimensional stability, unmatched lay-flat characteristics, along with the look and feel of a luxury paper. Synaps® OM delivers high throughput and quick turnaround using standard inks, which enables offset printers of any size to win new opportunities replacing lamination for menus and POP signage. To top it off, Synaps® OM stands up to the toughest indoor and outdoor environments. Synaps® OM is designed for offset printing applications as well as HP Indigo, screen, flexo, gravure and UV-curable inkjet printing.

- Superior alternative to lamination
- Dries like paper for quick processing
- Exceptional printing using standard inks
- Waterproof, tear proof, and weather resistant
- Lays perfectly flat, even if shipped in a tube
- Look and feel of a luxury paper
- RIT certified for HP Indigo printers

NEKOOSA COATED PRODUCTS,LLC

Thermanent & Indigo Synthetics

Thermanent designed to withstand the high heat environment within toner-based digital printing equipment, Thermanent is a premium polyester based synthetic that combines extreme strength, flexibility, print quality and durability. This revolutionary product produces beautiful images that last when hung on the wall or even submerged in water. Strength and durability make Thermanent the perfect substrate to replace any laminated application including signage and menus. Nekoosa now offers die cut templates for door hangers, parking passes, and business cards. This product is offered in convenient retail size reams containing 100 sheets for most sheet sizes, which make those smaller jobs a perfect match for your digital printer. Why waste time and money laminating when you can press the green print button on your digital printer and have a job that is ready to ship using Thermanent?

- Designed specifically for digital toner platforms ranging from desktop printers to full production digital equipment.
- Replaces laminating. Durable and weather resistant polyester face stock is perfect for indoor and outdoor usage.
- Available in three die cut patterns; 3UP door hangers, 6UP parking passes and 8UP ID cards to save you time and money.

Nekoosa's Indigo Durable Synthetic, with premium IndiLuxe™ coating, is a synthetic paper specifically designed for HP Indigo presses. Its durable, tear resistant base stock makes Indigo Durable Synthetic a great choice for both indoor and outdoor applications where resistance to water, chemicals, oil and grease is necessary.

Advantages:

- Earned top ratings in all HP Indigo certification categories from the Rochester Institute of Technology
- Excellent HP Indigo ElectroInk® adhesion for superior imaging
- Nekoosa's IndiLuxe™ proprietary coating treatment assures the sheet won't yellow over time

Polyolith

Polyolith is an extremely versatile, polymer-based material that prints like paper but boasts the best properties of plastic. Polyolith is far stronger than conventional paper and supports a massive selection of grades, gauges, finishes which make Polyolith a serious consideration for almost any application. Take a close look around your house or the next time you walk through a store. There's a good chance what you're holding is made of Polyolith.

Applications :

Tags for Luggage, Lumber, Horticultural

Commercial Printing for Maps, Menue, Manuals, Posters, Banners, POP Displays

Packaging for Trays, Binders, Folders

Available in Calipers up to 28 mil

Custom Sizes available upon Request.

NEKOOSA COATED PRODUCTS,LLC

MagneCote

You only get one chance to make a first and lasting impression. Using magnetic media instead of standard paper is your best opportunity to do both. MagneCote® Offset, offered by Nekoosa Coated Products, is the world's most attractive paper and the greener magnetic paper choice. Magnetic advertising media offers the highest ROI and retention of any substrate. A magnet is irresistible; you simply must stick it to your file cabinet, refrigerator or the nearest metallic surface. In fact, it is this irresistible urge that gives magnetic media a 30% higher response rate than other substrates. MagneCote® Offset is the perfect choice for business cards, calendars, sport schedules, coupons, reminders, and instructions. The possibilities are endless. Keep your name in front of your customers and steer more business your way!

Magnetic printing just got easier with MagneCote® Digital. A special coating has been added to standard MagneCote® Digital that enables the product to withstand the high heat environment within digital print equipment. Now, you can run pre-magnetized product on your mid-range digital platforms for short run, quick turnaround magnet applications. Since the product is pre-magnetized, it is designed to run in small to mid-size digital printers that do not have lengthy conveyance areas where the product can magnetically adhere to conveyance trays. We offer 10 sheet trial packs that enable you a risk free trial of the product, just contact your local merchant or Nekoosa customer service rep for details. Expand your printing opportunities if you are not currently offering magnetic printing or save the hassle of outsourcing magnet jobs by using Digital MagneCote for business cards, calendars, and company contact information. •Like standard MagneCote® Offset, Digital MagneCote is Nexpress certified.
